- Athlete of the month.

Personal Message from Mariana McMurtrie

I've been playing softball ever since I could remember. I've been told by past and current coaches that I am a very coachable player, allowing me to pick up plays and positions rather quickly. For example, I moved from middles and outfield for my select teams (past and present), but I play corners for my High school team, as well as pitcher for both. I also help those new girls on my high school team to know the basics of softball and try to get practices together for those who want help to get on varsity. For college, my dream is to become an engineer and designer or a video producer/photographer. I love working with numbers, creating new things and I also love video production/photography. I did take a class for engineering and design in 2016-2017 at my mom's request, but I loved it. I also took Visual Communication in 2017-2018. One of the most important things in a team, I think, is communication. Communication is a big thing for me because without it players and coaches don't really know what's going on with you and what's happening. I have been making it to all of my team workouts, practices and classes at school. An example of my hard work is that 2nd-8th grade I had an IEP for reading/writing, but I worked hard and I entered 9 and 10th grade in honors English, now I am in AP English 3.
